**Electrical Contractor, General Contractor, Owner/Tenant**

*I / we agree to complete this electrical installation in accordance with all applicable laws within the allotted time frame or else apply for additional time. I / we will call the electrical inspector for the required final inspection and approval, and understand if the final inspection is not made within the allotted time, the appropriate utility company will be notified to disconnect the source of power. The applicant making the request for temporary service hereby assumes all liability for any damage that may occur due to the electric current being so connected.*

*Also, we the undersigned hereby acknowledge that it is unlawful to occupy or to permit the occupancy of any building for which a Certificate of Compliance has not been issued ( N. C. G. S. 153A-363 and 160A-423, and that a Certificate of Compliance cannot be issued until all applicable trades ( Building, Plumbing, Mechanical and Electrical ) have conducted and approved their respective final inspections, and any required water tests and/or site conditions/landscaping have been approved. Furthermore, we understand that the North Carolina State Building Code defines "occupied" as follows: "As applied to a building, shall be construed as though followed by the words 'or intended, arranged or designed to be occupied' ", and that the presence of furniture, stock, etc. is therefore construed by the Durham City-County Inspections Department as occupancy.*

We understand that any furniture, stock, etc. moved into the building prior to the issuance of a Certificate of Compliance (without prior written approval from the Durham City-County Inspections Department) will result in a denial of further requested inspections and notification to the appropriate utility company to disconnect the source of power until such time that the furniture, stock, etc. is removed from the building.
